OVER 130 YEARS OF INNOVATION

THE PPE EYEWEAR SPECIALISTS

Led by innovation for over 130 years, we have developed more than 500 products to go beyond our users' expectations. With a wide range of comfortable and protective safety and prescription eyewear, we ensure the protection of the vision of more than 20 million workers in 100 countries worldwide.

Bollé Safety offers certified products that comply with the strictest international standards while ensuring greater safety, reliability, and comfort in all circumstances.

OUR CLEANROOM PRODUCT RANGE

Inspired by wearers for greater everyday comfort, ergonomics, and safety, Bollé Safety has developed a range of protective eyewear dedicated to cleanroom environments. Our product range allows the limitation of airborne contamination from workers to maintain cleanliness levels that comply with cleanroom regulatory standards while providing them with the highest levels of protection, clarity, and vision at all times.

SINGLE-USE GOGGLES

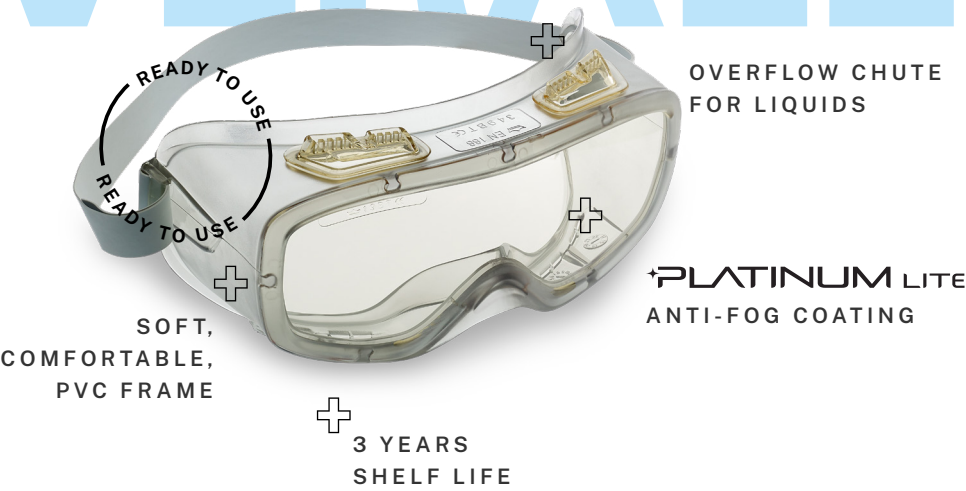

SINGLE-USE

“READY-TO-USE” STERILE SINGLE-USE GOGGLES

COVERALL

PSGCOV2R01

Already sterilized by gamma irradiation, these sterile goggles have been especially engineered to guarantee high protection and comfort in controlled environments. The production and packaging are carried out under cleanroom class 7 conditions. The sterilization process complies with ISO 11137 to ensure a SAL value of 10⁻⁶.

MULTI-USE

MULTI-USE AUTOCLAVABLE GOGGLES

COVERALL

COVACLAVE

Equipped with our exclusive anti-fog and anti-scratch **PLATINUM** coating on both sides of the lenses, our range of autoclavable multi-use goggles are resistant to high temperature and still fully functional after several autoclaving cycles. Our goggles' designs fit over any prescription glasses, ensuring improved eye protection and vision.

ELITE COVER

MULTI-USE AUTOCLAVABLE

Innovative accessory for the ELITE goggles, the ELITE COVER can easily convert direct vented goggles into indirect vented goggles with just a simple click. In line with GMP Annex 1 regulations, operators are increasingly opting for indirect vented goggles to minimize particle emissions in cleanrooms. It provides flexibility, easy assembly and disassembly, secure attachment, and autoclaving up to 40 cycles at 121°C for 20 minutes. This accessory comes in a 100% recycled and recyclable HDPE eco polybag with printed assembly instructions. The ELITE COVER meets the demands of cleanroom environments and offers maintained visibility and clarity for operators.

- + **CONVERTS DIRECT VENTILATION INTO INDIRECT VENTILATION**
- + **MULTI-USE AUTOCLAVING UP TO 40 CYCLES AT 121°C FOR 20 MINUTES**
- + **AUTOCLAVE ASSEMBLED ON THE GOGGLES OR SEPARATED**
- + **EASY MANUAL ASSEMBLY AND DISASSEMBLY**
